Choosing doors for your home is an important and exciting decision.  
A door is the element in your home you interact with more than any other.

Think about it,

Feeling the safety it provides as you go in and out of your home morning and night  
Gently closing it as you put your children to bed  
Quickly locking it as you finally get time for yourself in a bath

Your life goes through your doors and your life deserves more than just any door.  
It deserves Oppein Vantini doors.

## Top Brand in China

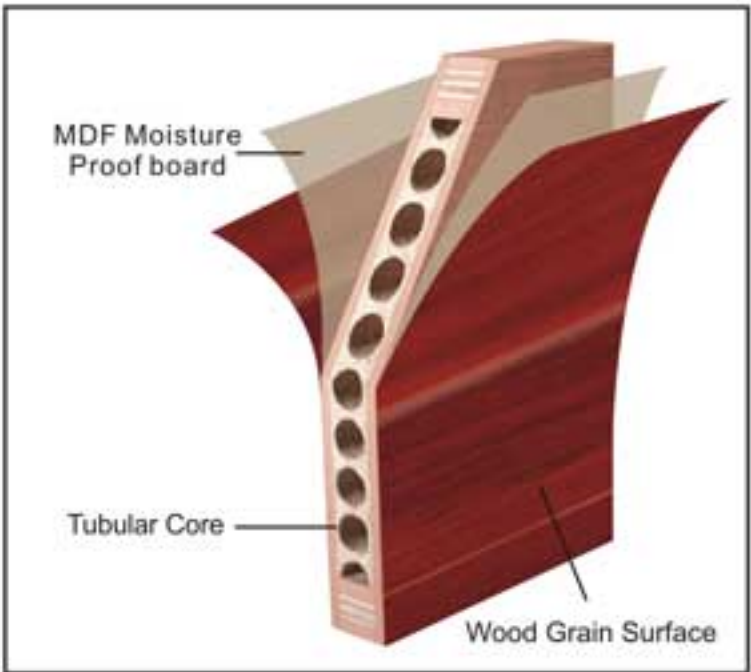

Oppein Vantini Doors is the sub-company of Guangdong OPPEIN HOME Group Inc. which is the leading cabinetry manufacturer in China and the largest in Asia. The top grade production line from Germany, Italy and Spain to assure Oppein Vantini provide the high-quality and first class doors. The advanced manufacture management system and 250,000 sets annual capacity assure Oppein Vantini to meet unique requirements of customers all over the world.

## First-Rate Base Material

Tubular Core – through a technical collaboration with Sauerland Spanplatte of Germany

Like a bridge construction, Tubular Core provides an ideal combination of light weight and stability. Compared to solid boards, the weight of Tubular Core is reduced by up to 60%. This impressive fact proves that high quality doors do not have to be heavy!

Tubular and solid cores have a very low thickness swelling, which is unusual for wood based materials. This makes them particularly suitable for doors with delicate surfaces. The special positioning of the particles guarantees a very high impact resistance: Oppein Vantini Doors with Tubular Core withstand even the greatest impact – in spite of maximum diameter of the tubes.

The superior features which make Oppein Vantini Doors unique are:

- Supreme economy
- Fire resistance
- Sound Proofing
- Better heat preservation
- Widely recognized as a Green Product
- Lightness, rigidity and impact resistance

## European Famous Brand Hardware and Accessory

Take the lead in using the European standard lock body and unify the size of hole for the lock body to minimize the installation error. Oppein Vantini has established strategic co-operations with international well-known hardware suppliers, such as Häfele ® of Germany. High quality hardware helps to consolidate Oppein Vantini's reliable quality.
